PROFESSIONAL PROFILE

To leverage my 7 years of experience as an application developer and IT specialist—4 years in the academic sector and 3 years in the IT industry—to contribute effectively as a web developer. I aim to engage with emerging technologies, expand my skill set, and collaborate on innovative projects to foster both personal and professional growth.

PROFESSIONAL EXPERIENCE

Full Stack Web Developer (EST Time)

Quantric Enterprises Inc.

November 2024 – August 2026

Tech Stack: ReactJS, ASP.NET MVC, Azure DevOps, JIRA

- Participated in daily Scrum meetings to discuss sprint progress, blockers, and upcoming tasks.
- Investigated, tracked, and resolved client-reported issues using **Azure DevOps** and **JIRA**.
- Primarily handled frontend bug fixes and enhancements using **ReactJS**, while collaborating with backend developers working on **ASP.NET MVC**.
- Used **Azure DevOps** for work item management, sprint tracking, and code collaboration as part of the Agile development process.
- Worked closely with QA engineers and stakeholders to validate fixes, perform testing, and ensure timely issue resolution.
- Contributed to maintaining application stability by delivering bug fixes, UI improvements, and feature enhancements within Agile sprints.

Software Developer (Freelance AI Engineer)

ZQR.

August 2024 – June 2026

Tech Stack: Google Cloud Run, Supabase, Claude AI

- Implemented and supported cloud-based services using **Google Cloud Run** and **Supabase**.
- Resolved bugs, optimized application performance, and enhanced existing system features to improve usability and reliability.
- Utilized **Claude AI** to assist with development workflows, debugging, and productivity improvements.

.NET Developer

IT Managers, Inc. (Contractual)

May 2022 – November 2024

Tech Stack: .NET Framework MVC, Microsoft SQL Server, SSIS, LINQ, Entity Framework Core

Tools: Internet Information Services (IIS)

- Provided technical support to users by troubleshooting and resolving application issues.
- Developed new applications from scratch under the guidance of senior developers.
- Implemented Database Access Layer and Business Logic Layer for clean and maintainable architecture.
- Followed the Software Development Life Cycle (SDLC) throughout project development.
- Deployed and maintained web applications using IIS.

Web Developer

Shiftright Co. Ltd.

December 2021 – June 2024

Tech Stack: Laravel, ReactJS, .NET 6, RESTful APIs, Azure DevOps, GitHub Actions (CI/CD)

Version Control: GitHub

Tools: Zoho CRM, Xero, Zapier, Umbraco

Integrations: Stripe, Airwallex, LinkedIn, Telegram, Medium

- Developed and maintained full-stack web applications using Laravel, ReactJS, and .NET 6.
- Built and integrated RESTful APIs with third-party services.
- Implemented CI/CD pipelines using GitHub Actions.
- Communicated directly with clients during daily stand-up meetings to provide project updates.
- Worked within an Agile development environment using an in-house Kanban-style project management system.

Web Developer

Londa Online Technologies, Inc.

July 2021 – May 2022

Tech Stack: .NET Framework MVC, AngularJS, jQuery

Version Control: TortoiseSVN

Tools: JIRA

- Fixed bugs and enhanced existing enterprise applications.
- Developed and integrated user interface components.
- Performed code reviews, code merging, commits, and production deployments.
- Collaborated with QA to resolve reported issues.
- Participated in Scrum ceremonies, including daily stand-ups and sprint planning.
- Submitted weekly progress reports and supported bi-weekly production releases.

Frontend Developer (Freelance)

Spring Valley Tech Corp.

February 2021 – July 2021

Tech Stack: ReactJS

Version Control: GitLab

Tools: JIRA

- Developed and maintained ReactJS components for client projects.
- Implemented UI changes and responsive layouts based on client requirements.
- Participated in weekly client stand-up meetings.
- Worked within an Agile development process covering planning, development, testing, review, and retrospective.

Application Developer

Henry Luce III Library, Central Philippine University

October 2017 – March 2021

Tech Stack: C#, ASP.NET Web Forms, Microsoft SQL Server

Tools: Internet Information Services (IIS), WordPress

- Developed web applications from scratch based on departmental requirements.
- Maintained and enhanced the Library Management System and library databases.
- Administered and supported the university library website using WordPress.
- Managed network connectivity for the main library and satellite libraries.
- Deployed and maintained applications using IIS.

PROJECTS

- CPU Employee Login/Logout System (deployed) – June 2020–Present – Central Philippine University, Lopez Jaena St., Jaro Iloilo
- Login/Logout Library System (deployed) – November 2017–Present – Central Philippine University Henry Luce III Library, Lopez Jaena St., Jaro Iloilo
- Guidance Information System with OMR Scanner and Student Web Information System (deployed) – February 2016–Present – Central Philippine University Guidance Services Center, Lopez Jaena St., Jaro Iloilo
